RESUMO PROFISSIONAL

Backend / Full-Stack Developer and Systems Analyst with experience in **Python, JavaScript, TypeScript, Node.js, Flask, FastAPI, React, SQL, Docker, Git/GitHub, and CI/CD with GitHub Actions**. Graduated in **Systems Analysis and Development and Computer Science**.

I work on the development of REST APIs, automation, systems integration, data handling, and web solutions, with a focus on operational efficiency and process improvement.

I have solid previous experience in the legal field, team management, and analysis of public-sector processes, which strengthened my analytical perspective, organization, leadership, and ability to interpret complex business rules and transform them into technological solutions.

COMPETÊNCIAS TÉCNICAS

- Languages: **Python, JavaScript, TypeScript, SQL, HTML5, CSS3**
- Backend: **Flask, FastAPI, Node.js, Express, APIs REST, GraphQL**
- Frontend: **React, HTML5, CSS3, interfaces responsivas**
- Databases **MySQL, SQLite, Firebase/Firestore**
- DevOps and Tools: **Docker, Docker Compose, Git, GitHub, GitHub Actions, Grafana**
- Testing and Quality: **pytest, TDD, versionamento de código**
- Methodologies: **Scrum, Kanban**

EXPERIÊNCIAS PROFISSIONAIS

Desenvolvedor Backend - A5 Labs (Python) | 2025

- Development and optimization of **Python** code for data handling, business rules, and support for application logic.
- Collaboration in the development of **RESTful APIs** with **Flask** and **FastAPI**, promoting integration between system modules.
- Data handling in **MySQL**, including query creation, table organization, and support for business rules.
- Use of **Grafana** for visualization and monitoring of metrics.
- Creation of automation scripts and containerization of parts of the application with **Docker** and **Docker Compose**.

Analista de Sistemas | Gerente Executivo - Prefeitura de Belo Horizonte - PBH | 12/2018-atual

- Leadership of a multidisciplinary team, demand management, priority definition, and deadline coordination.
- Work as a systems analyst, including requirements gathering, flow design, business rule analysis, and virtualization of administrative processes.
- Participation in the development, implementation, and evolution of the **SIGESP** and **BH Digital**

systems, contributing to the digitalization of processes and increased operational efficiency..

- Interface between technical, legal, and administrative areas, translating institutional needs into system solutions and operational workflows.

Full-Stack Web Developer – Freelance, Academic and Personal Projects

- Desenvolvimento de sites e aplicações web utilizando **JavaScript, TypeScript, HTML5, CSS3, React e Node.js**.
- Criação de aplicações integradas ao **Firebase/Firestore** para armazenamento e recuperação de dados em tempo real.
- Desenvolvimento de interfaces responsivas e funcionalidades full-stack com foco em usabilidade, organização de código e integração com banco de dados.
- Utilização de **Git** e **GitHub** para versionamento, organização de projetos e publicação de aplicações.

Senior Attorney – GAMAA Corporate Law Firm | 02/2010–03/2016

- Supervision and optimization of internal procedures, deadline control, and work distribution.
- Team leadership focused on efficiency, organization, and quality of deliverables.
- Development of communication, negotiation, conflict management, and complex problem-solving skills.

FORMAÇÃO

Systems Analysis and Development – Newton Paiva University | 2022–2025

Computer Science – Newton Paiva University | 2024–2026

Law – Federal University of Minas Gerais – UFMG | 2005–2009

IDIOMAS E SOFT SKILLS

Fluent English

Leadership, clear communication, complex problem-solving, analytical thinking, systemic vision, organization, fast learning, and adaptation to new technologies.
